Results-driven Front-end Web Developer with a strong background in graphics design and a passion for crafting exceptional user experiences. With over 6 years of industry experience, I have successfully delivered numerous robust and visually stunning web applications across various industries.

Technical Skills:
Front-End: HTML5, CSS 3, JavaScript (ES6+)
Framework: Bootstrap, react JS, SCSS
Tools: Git and GitHub

Key Achievements:
Developed and launched 5 responsive websites with cutting-edge designs, resulting in increased user engagement and conversion rates.
Implemented complex front-end features using Bootstrap framework, resulting in enhanced user interactivity and seamless navigation.

Utilized agile methodologies and collaborated closely with cross-functional teams to deliver high-quality projects within tight deadlines.

Strong understanding of color theory, typography, and layout design, resulting in aesthetically pleasing and user-friendly websites.

Passionate about staying up-to-date with the latest industry trends, I continuously enhance my skills and explore emerging technologies to deliver innovative and efficient solutions. I am highly adaptable and thrive in dynamic and challenging environments.

As a problem-solver and creative thinker, I excel in identifying opportunities for improvement and implementing effective solutions. With a keen eye for detail and a focus on usability, I strive to create seamless digital experiences that leave a lasting impact on users.

Let's connect to explore opportunities and discuss how I can contribute to your organization's success.

Willing to relocate: Anywhere
Authorized to work in the US for any employer
